**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Towery et al in view of Ronay as applied in the Office Action filed June 03, 2005.

***Response to Arguments***

3. Applicant's arguments filed September 02, 2005 have been fully considered but they are not persuasive.
  - Applicant argues that in claim 5, the slurry is not supplied to any soft polishing pad or block of the type described by Towery but is directly supplied onto the hard surface of the lapping plate; and that neither of the cited references suggests or even hints at supplying a slurry directly onto the lapping plate surface.
    - o Applicant merely recites, "supplying a specified amount of said polishing agent between said lapping plate and said target object to be polished, said lapping plate having a flat and smooth surface". Applicant does not recite that the slurry is directly supplied onto the hard surface of the lapping plate as argued. Even so, the polishing pad of Towery et al is "flat and smooth" as recited. Further, a specified amount of the polishing agent is supplied "between the lapping plate and the target object to be

Art Unit: 3724

polished", since applicant does not recite that a polishing pad is not present on the "lapping plate". Furthermore, a platen with a polishing pad thereon is a "lapping plate".

**Conclusion**

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
